

HERNANDO COUNTY FISHING CLUB COST SHARING OPPORTUNITIES

There are many purposes for our club. We exist to bring fishermen and fisherwomen together so that they may enjoy the comradery of other lovers of their sport, we bring representatives of the various aspects of the sport to speak and share their particular insights into the sport from their point of view, we gather for social occasions with breakfasts, other meals, and functions. The single most important reason why we get together though, is to **go fishing!**

In the “Members Only” section there is a “Cost Share Program” page. This page exists to give you an opportunity to reach out and connect with other members without having to be a computer wizard. You just have to be able to make a telephone call, or write an email. I will do the rest for you. If you have a boat, would like to put together a fishing trip of any sort, and defray the costs, check this page out by clicking [HERE](#). There may be fellow members who are waiting for just such a trip.

If you do not own a boat, but would like to fish from somewhere other than shore, or for species that are not available from shore, check this page out by clicking [HERE](#). There may be a boat owner looking for someone just like you to fill out his trip and make it possible. Be prepared to spend some money. Tailoring a boat is not fun. Bait, ramp fees, ice and gas are not free.

If you have another type of idea that would lend itself to the cost share scenario, like a carpool trip to the Sky Way Fishing, Pier where everyone shares the expense of driving, and cost for the car to enter etc. or maybe a trip to your favorite pier that we don't know about, lets get it posted and see if you can put it together.

Professional Captains and Guides who are members are welcome to advertise their services here.

Use this space to get together. The worst that can happen is that you will spend a day on the water with the cost shared by other Club Members. What will probably happen is that you make a new friend or three, and broaden your fishing world. It is by bringing the various individuals in the Club together on a personal basis that we make the move from being a room full of people, to a room full of friends and acquaintances. At that point we will have reached a goal that every fishing club hopes for, but few succeed.

You may have your wish displayed in the “Cost Share Program” by calling me, Jim Husband, at 727-379-3628, or sending me an email at jhusband1@tampabay.rr.com. It will be password protected there. Only members will be able to see it. Please answer the questions who, what, when, where, and how much in your fishing request.

Once I have posted your request, my job is over. You must make your arrangements, or not, between each other.

If I do not represent your request exactly the way that you wish, call or email me and I will fix it. As your request passes the dates that you have given, I will remove it. If you want it up again with a different time span, just call or email me. I will post it again.

If you would like a few minutes to explain your activity to the membership, tell me before the meeting and I will give you some of my time to address the Club concerning your activity.

Jim Husband,

Activities Director
